

# Energy Bingo

We use energy in all aspects of our lives: from the food we eat to how we travel to school. Learn about energy and get a bingo by completing five challenges that line up in a row across, up/down, or diagonal.

Share a photo of yourself completing a square, or with your completed bingo card, with @WisconsinEnergyInstitute and @Wiskeep Instagram or Facebook.

<p>Explore the <a href="#">future of bioenergy crops</a> in Wisconsin</p> 	<p><a href="#">Conduct an oral history</a> about the clean energy transition.</p>	<p>Go on a scavenger hunt for rooftop solar in your neighborhood</p> 	<p><a href="#">Order your free pack</a> of energy saving products from Focus on Energy</p>	<p>Enjoy the season's harvest. Eat something local today!</p> 
<p>Borrow a Portable Energy Meter from your public library (or from KEEP) to discover how much power appliances use</p>	<p>Get creative and build a <a href="#">shoe box solar cooker</a></p>	<p>Become a scientist and conduct an at home <a href="#">fermentation experiment</a></p>	<p>Conduct a <a href="#">Home Appliance Survey</a></p> 	<p><a href="#">Uncover the connections</a> between energy and health</p>
<p>Look at your latest energy bill and <a href="#">learn how to read it</a></p> 	<p>Read about the latest research and <a href="#">Wisconsin Energy Institute News</a></p>		<p>Save energy by drying laundry on a line or rack instead of in the machine</p>	<p>Sign up to <a href="#">Skype a Scientist</a></p> 
<p>Watch <a href="#">this video</a> to investigate jobs in the energy industry</p>	<p>Use Google Maps to plot out your safest route to bike from home to school or work</p>	<p><a href="#">Calculate the carbon emissions</a> from your school's bus fleet</p>	<p>Checkout your home's solar savings potential with <a href="#">Google's Project Sunroof</a></p>	<p>Fill out the <a href="#">Online Energy Scavenger Hunt</a> and learn how to save energy at home</p>
<p>Learn how teams of scientists work to create biofuels while <a href="#">coloring in this coloring page</a></p>	<p>Explore how the United States makes its electricity with this <a href="#">New York Times article</a></p>	<p>Switch a light bulb to LED</p> 	<p><a href="#">Take a 3D tour</a> of a wind turbine</p> 	<p>Be energy efficient as you travel! Walk, bike, or take the bus!</p>
