

Dear Dr. (INSERT PROF NAME),

Hello, my name is \_\_\_\_\_ and I am an undergraduate student at University of Wisconsin-Madison studying \_\_\_\_\_.

I wanted to reach out today to inform you about the UW-Madison [2024 Climate Justice Teach-In](#) hosted by the Wisconsin Energy Institute and all students concerned about sustainability on our campus.

As part of the Teach-In, UW-Madison is participating in *#MakeClimateAClass*. We invite and strongly encourage all instructors teaching a course during the 2024 Spring semester to incorporate a discussion of climate solutions into their syllabus, during the month of April if possible.

We understand that this may not be feasible for all instructors during the spring semester, however, if the only restriction is finding resources about how climate solutions affect your discipline, please reach out to [kewenzel2@wisc.edu](mailto:kewenzel2@wisc.edu) and we are more than happy to assist and support you.

All students - no matter their field of study - deserve to hear about how they can contribute to climate solutions. This initiative is not only inclusive of, but targeted to classes that aren't specifically focused on climate and the environment. By engaging students across all disciplines on our campus with climate, we aim to show them that they all can play a role in the movement to address climate change, regardless of their academic path.

**If you are interested in taking part in this initiative, please provide your contact information and details about your Spring 2024 courses in this [Google Form](#)!**

Sincerely,

YOUR NAME !
