

**Cleveland, WI**

# KidWind Challenge Educator Workshop

## An Energizing Exploration

### Join Us!

The Wisconsin Energy Institute and Wisconsin's K-12 Energy Education Program (KEEP) are excited to bring the KidWind Educator Workshop to Cleveland! Join us at Lakeshore Technical College and learn how to explore the power of wind with your students!

We will also get to tour Lakeshore Technical College's renewable energy facilities and take a short drive to a local wind farm!

**Workshop Cost: \$25**

**Register by August 8** for the \$10 Early Bird Discount and to ensure a free Advanced Wind Turbine Kit!

**Thursday,  
August 22nd, 8am**

Nierode Building,  
Lakeshore Technical College  
1290 North Ave.  
Cleveland, WI 53015

### Workshop Description:

Learn how to explore the power of wind with your students! In this workshop you will review energy and electricity basics, design and test blades in a wind tunnel, explore KEEP energy education resources, and preview renewable energy curriculum.

Participants will also learn about the Wisconsin KidWind Challenge and gain tips for coaching student teams through the process of designing and constructing small-scale turbines or solar devices. Educators will leave with the resources and confidence to use renewable energy in the classroom.

### 2025 WI Kidwind Challenge

March 1, 2025  
Discovery Building at UW-Madison  
330 N. Orchard St.  
Madison, WI 53726
